We the patrons of Waysville School and citizens of the community, sincerely request the Oudoun County School Board to reconsider the matter of closing the Daysville School for the term of 1924-25.

We present this petition as evidence of our interest in having a school at Daysville.

We respectfully ask you to consider a few things in our behalf!

Due to no cause of our own is the present enrollment so small for the last half of the term of 1923-24. The enrollment at the beginning of the term was twenty-three. Such a small enrollment has not been the case for any number of terms, nor for one whole term.

Has our percentage of attendance compared with that of the schools in general? Have we shown a lack of interest in our school?

Few if any of the children are within a reasonable distance of any other school.

We sincerely believe there will be a larger school enrollment next term.

We wish upon presenting this petition to express our faith in the Oudoun County School Board, in that, we believe, we will be given every consideration in this matter and that the Board will not close our school without a good cause.
